

Filter - Regulator Units

Miniature Filter-Regulator Units

Miniature Filter-Regulator Unit Manual Drain		
Item	Port Size	SCFM*
23-114	1/8" NPT	10
23-216	1/4" NPT	10

* SCFM at 100 psig inlet and 80 psig reduced pressure

Replacement Filter Elements

Replace the filter element yearly or at a 10 psi pressure drop

Replacement Filter Elements	
Filter-Reg Unit	Element
23-114/23-216	24-801
23-218/23-219	24-803
23-320/23-321	24-803
23-422/23-423	24-805
23-458/23-459	24-803
23-524/23-525	24-805

Other FRL Combinations

With the flexibility of Pneumatic Parts Air Preparation components, we can custom build virtually any combination to suit your requirements.

Please contact us to discuss your specific application.

Some other combinations available:

Diverter Block and Plate

Diverter Block			
Item	Main	Branch	Use With:
28-800	1/4" NPT	1/8" NPT	Mini 1/8" & 1/4"
28-805	1/2" NPT	3/8" NPT	1/4", 3/8" & 1/2" compact
28-810	3/4" NPT	1/2" NPT	1/2" and 3/4"

Diverter Blocks are used to give FRL components complete versatility. FRL components can be manifold mounted directly to the diverter block. They make Pneumatic Parts FRL components truly modular.

Diverter Plate		
Item	Branch	Use With:
28-820	1/8" NPT	1/4", 3/8" & 1/2" compact
28-825	1/8" NPT	1/2" & 3/4"

Diverter plates are used to provide air signals in a compact space. They can be used with pressure gauges or pressure switches. They are usually installed between the regulator and lubricator in a typical FRL combination.

Filter-Regulator + Lubricator

Standard FRL Combo + Diverter Block
